Important Accommodation Update

A Klub Hotel

As most of you have probably already heard, the A Klub hotel, which we had previously booked, burned down last week. We want to reassure you that the situation was resolved in the shortest possible time!

•New Room Allocation: All participants who were supposed to be accommodated in A Klub have been successfully reassigned to other hotels, taking into account the number of people per team and room structures.

•Where are you staying? Part of the group has been assigned to the Grand hotel, while the other part has been moved to the Gorski hotel.

•Key Information: Exact details on which hotel you have been assigned to will be provided by your team captains.

•Take a look at what the Gorski Hotel looks like, and new photos will soon be uploaded to our official website!
